Hey! I'm **Tahseen** a third-year B.Tech. student majoring in Computer Science. I'm passionate about coding and problem-solving, especially when it comes to web development and real-time applications. I'm looking for an internship at Liquid Analytics to put my skills to the test, learn more about real-time analytics, and dive into innovative technologies. I believe in making things work through collaboration, creativity, and a strong engineering mindset.

projects

● SmartCall – Video Conferencing Platform

Technologies: React, Node.js, MongoDB, WebRTC, JavaScript, HTML, CSS

- Built a video conferencing platform that brings people together for seamless communication.
- Integrated WebRTC for real-time video/audio streaming, and used React for a smooth, interactive front-end.
- Designed the backend with Node.js and MongoDB to handle real-time data flow and user management.
- Focused on ensuring a user-friendly experience and optimizing performance for uninterrupted virtual meetings.

● Sports Safari – Ground Booking Platform

Technologies: JavaScript, Node.js, MongoDB, HTML, CSS

- Created a platform where sports enthusiasts can easily book grounds for activities like cricket, football, and badminton.
- Developed a simple, clean front-end using HTML, CSS, and JavaScript to make booking easy
- On the backend, I used Node.js to handle server-side logic, and MongoDB for efficient data management.
- Ensured users could quickly find and book the perfect ground, making sports more accessible.

Education

Diploma in Computer Science

2019 - 2022

MSBTE

Percentage: 82.17%

B.Tech in Computer Science (Ongoing)

2022 -

RTU, 6th Semester

Skills

- Programming Languages: Python, JavaScript, C++
- Web Development: MERN Stack (MongoDB, Express, React, Node.js)
- Database Management: MongoDB, SQL
- Real-Time Communication: WebRTC
- Frontend Technologies: HTML, CSS
- Version Control: Git, GitHub
- Problem-Solving & Algorithms: Data Structures & Algorithms (DSA)
