PROFILE

Full-stack developer with a strong foundation in web technologies, focused on building clean, scalable applications. Constantly exploring new tools and frameworks to grow faster and build smarter

EDUCATION

Global Institute of Technology, Jaipur,   2022 – 2026
B.Tech Computer Science & Engineering

Jamia Polytechnic, Akkalkuwa,   2019 – 2022
Diploma Computer Science & Engineering

PROJECTS

DevSnip 🔗
DevSnip is a **personal code snippet manager** built with the **MERN stack**. It allows developers to save, search, and manage reusable code snippets efficiently. Focused on clean UI and fast performance, it streamlines daily development workflows with filtering and snippet organization features

SmartCall 🔗
SmartCall is a **real-time video conferencing platform** that allows users to create and join calls instantly. Built with React, Node.js, and WebRTC, it offers seamless video and audio communication, screen sharing, and scheduling features, making it perfect for both professional and casual use

AI-Dashboard 🔗
AI-Dashboard is a **fast, responsive dashboard built with React, Vite, and Tailwind CSS**. It's designed to manage data-driven applications with an intuitive and minimal interface, and is ready to be integrated with AI functionalities for future enhancements

Portfolio 🔗
My personal portfolio **showcases my skills, projects, and experiences in web development**. Built with React, Vite, and plain CSS, it features a clean, responsive design that works smoothly across devices, offering an interactive and minimal browsing experience
